

Mrs. G. Hawkeatts.

Implant Surgery

May-October 2016.

- All options, after tooth loss, were fully explained and time was given for me to consider these options.
- Implant procedure including timescale and costs was given in writing and each point was discussed prior to commencement.
- Total process was completely pain free.
- The after care was excellent. Called by receptionist after surgery to check all was well.
- Anu was both professional and friendly throughout.
- I have recommended Anu to both family and friends and would not hesitate to have further implant surgery should the need arise.
